

Working in partnership to make your practice more profitable

At Smile Lincs Referral Centre; we aim to provide our GDP colleagues with the best referral service; one that shall raise the profile of their practice and improve profitability by increasing efficiency and treatment possibilities.

The service is flexible and can be tailor made to your specific requirements; from assessing the suitability to treatment; to full treatment planning and assisting with restorative care.

In addition to the correction of malocclusion; orthodontic treatment could be an adjunct to restorative or cosmetic treatment.

Endodontics (especially posterior teeth) in particular could in most cases be carried out in a single visit and the patient returned to you for restoration.

We aim to help our colleagues by freeing their time so that they could concentrate on profitable activities.

With Oral Surgery and Implantology referrals also accepted the referral team are on hand to cater for all your referral needs.

Additional services include Invisalign, Inman aligners and hygienist services.

Our Mission and Promise

We aim to provide a referral service which is unique and enhances your patients' trust in you for procuring specialist services for them.

Our Promise:

- We shall only carry out the treatment that is specified by the referring colleague; any further recommendations shall be discussed in advance.
- At the completion of the specified treatment; the patient would be discharged and returned to your kind care.
- After the initial consultation; each patient would receive a written treatment plan; with a cost estimate. A copy of the plan would be forwarded to the referring colleague.
- In the rare event of post treatment complications; the patient remains our responsibility, and remedial treatment would be provided.

The Referral Team:

Dental Implants

Dr Hossam (Sam) Mohamed
BChD SE DUI (Clinical Director)

I have been placing and restoring Implants Since 1997, and have trained with some of the world leaders in implant dentistry e.g. Prof. Hilt Tatum Jr. and Prof. Manuel

Chanavaz, at the University of Lille in France. I gained my Diploma in implant dentistry from Lille University in 2006, I am a Member of both the Association of Dental Implantologists (U.K) and the AAID. I am currently a clinical teacher in dental implantology at the Implant Education Centre in Leicester (Didactic 1 year implantology course), and I am also appointed as a Clinical Teacher in the Department of Restorative Dentistry; Charles Clifford Dental Hospital, Sheffield.

I am currently accepting referrals for implant therapy including:

- Immediate placement and loading.
- Single and multiple implants.
- All on 4 (same day teeth) cases.
- Complex cases including ridge and sinus augmentation.
- Full mouth rehabilitation.
- Sedation for anxious patients.

If you would like to restore the placed implants; I shall provide you with a free, one-to-one tutoring to restore your first case and guide you through the whole procedure; please contact me if you would like to discuss this further.

Endodontics

Dr Darren Wilkin
(BDS Bristol) (DWSI Endodontics)

I was born and raised in Grimsby, Graduated from Bristol in 1987. I returned back to Grimsby in 1995. I have been practicing at 34 Hainton Avenue since 1999.

Endodontic treatment has always been my passion; I studied with one of the leaders of Endodontics in the UK Dr Mike Horrocks Specialist in Endodontics, and have completed a didactic 1-year's course in Endodontic treatment in November 2009.

My future plans are to gain the postgraduate certificate in endodontics in the spring of 2010; then complete the Diploma in Endodontics shortly afterwards.

I will be glad to accept referrals for Endodontic Treatment including:

- a. Primary Orthograde treatment.
- b. Endodontic retreatments.
- c. Post/Instrument retrieval.
- d. Repairs of perforations.

Orthodontics

Mr Adrian P T Sims
